Monitoring

Boost your security using our proprietary technology.

» **Less Expense** - Video guarding costs 70% less than adding a single on-site guard.

» **AI-Enabled Alerts** - Automatically detect potential threats with advanced AI, minimizing false alarms and enhancing proactive security measures.

» **Prompt Response** - Our intelligent video analytics alert HQ operators in real-time, allowing them to respond instantly through live video feeds, loudspeaker interventions, personnel on the front lines.

» **Remote Guarding** - Effectively cover expansive areas with fewer personnel, providing robust security without increasing headcount.

» **Armed Patrol** - Licensed armed officers provide on-ground patrols to ensure comprehensive front line security coverage and immediate action when needed.

» **Detailed Reports** - Receive thorough, timely reports of all incidents and patrol activities, ensuring 24-hour full transparency and security insights through 24-hour monitoring.
